Jamaica Me Crazy Snow Cone

Directions

- In a bowl, combine the sugar and hot water and stir until the sugar is completely dissolved.
- Allow the mixture to cool to room temperature, then pour into the cold brew. Chill for at least 1 hour.
- Just before serving, shave ice and scoop into individual bowls or glasses. Pour the coffee mixture over each cup to taste, and top with a drizzle of sweetened condensed milk if desired. Serve with a spoon.

*You can easily create shaved ice by pouring a layer of water into a rimmed baking sheet, freezing it, and scraping the ice into crystals with a fork.
